

NorthernStar Mothers Milk Bank opened in April 2012 and is Canada's only community-based non-profit milk bank. Donor human milk helps babies in the Neonatal Intensive Care Unit (NICU) by decreasing risk for life-altering infections & diseases. Babies in the hospital who receive donor milk can go home approximately 2 weeks earlier. Donor human milk acts as medicine to fragile & preterm infants.

MONDAY AUGUST 28, 2023
CALGARY, ALBERTA

With 18 holes across a stunning landscape and an expansive newly-renovated Clubhouse overlooking the beautiful greens, The Glencoe Golf & Country Club offers an abundance of opportunities and amenities. Nestled along the Elbow River and just minutes outside of Calgary, golfers are welcomed with pristine views and immersed in nature while enjoying an exceptional round of golf.

Your generous support assists Canada's most vulnerable population: premature and sick infants in Neonatal Intensive Care Units.

NMMB operates independently of provincial health authorities & relies solely on charitable donations for expansion and our Community Care Fund.

Your donation ensures that we can meet the needs of these fragile babies and continue our operations.
